{ AVATARS AI — FOR DOCTORS & CLINICS }

Constant medical content — without recording a single video.

We build a hyperrealistic avatar of you from a photo session, clone your voice, and produce your content every month — scripts, videos, carousels and statics. You approve each piece; we do everything else.

+35M VIEWS GENERATED WITH THIS SYSTEM IN 2026

{ HOW IT WORKS }

01
Your avatar + content audit
Full character sheet from a photo session, voice cloning, and an audit of your current Instagram. Included in the first month of any plan.

02
Monthly content plan
A complete calendar: what your avatar posts, in which format, with which script. You just approve.

03
Production & growth
Ready-to-post videos every month, monthly metrics review and a quarterly growth roadmap.

{ ONE AVATAR · 8 FORMATS }
